From the Director's Desk

The Officer Evaluation Report (OER) will replace the Fitness Report For Commissioned Officers (Form 56-6) in December 2005. Until that time, please continue to use NOAA Form 56-6 for officer evaluations. We have delayed the introduction of the new OER so that we may provide adequate training for supervisors.

The Officer Assignment Board convened this week; it was another long meeting, but the board was able to make recommendations for most of the officers listed on the agenda. Please be advised that CPC no longer sends forthcoming assignment letters. Officers who are within 12 months of their scheduled assignment rotation date shall be considered by the OAB for reassignment. Please work with the appropriate liaison officer in advance to ensure that you receive consideration for an assignment matching service need and personal desire.
