For uniformed service personnel, the liberty is considered Special Liberty in accordance with NOAA Corps Directive 06204, and officers must adhere to the regulations therein.

Due to the unique mission sets of NOAA, operational requirements, and required duty schedules, Supervisors should ensure all uniformed service members receive similar opportunities for time off in conjunction with these holidays.

Enjoy the additional time with your friends, family, and communities. Please be safe and exercise sound risk management during this time. Thank you for all you do for NOAA and the Nation.

This memorandum supercedes the All OMAO Personnel memorandum, Subj: "CY24 Holiday 96-Hour Liberty Periods," dated October 19, 2023.
